## **Recommendation for action for preparing study plans based on the recommendation proposal for the language admission requirements**

### **Technical English acquisition**

Compulsory modules for the acquisition of technical languages (Technical English) are to be retained in any case in the existing German-language degree programmes. New degree programmes should also include compulsory modules for Technical English. In the course of internationalising universities of applied sciences, it is generally recommended for German-language degree programmes to anchor technical language acquisition as compulsory modules, or at least as specialist required elective modules (FWPM).

This recommendation also applies to English-language degree programmes in order to ensure the acquisition of subject-oriented English skills.

For specific module recommendations, please contact: [mathias.arden@th-rosenheim.de](mailto:mathias.arden@th-rosenheim.de).

### **German acquisition for international students**

For English-language degree programmes, we recommend the admission requirement of German A2 at the beginning of the degree programme<sup>1</sup>. During their studies, students should be given the opportunity to take German courses at level B1 and above as part of the specialist required elective modules in order to achieve sufficient language skills for the internship semester, navigating everyday life as a student in Germany, a possible work permit in Germany after graduation for non-European students, or similar.

For degree programmes according to the IBE model<sup>2</sup>, it is recommended that A2 be maintained as an admission requirement for starting a degree programme and that the accompanying compulsory and specialised language teaching be provided.

For German-language degree programmes, the study and language skills of international students should be strengthened within the framework of the specialist required elective modules.

For specific module recommendations, please contact: [barbara.lembecke@th-rosenheim.de](mailto:barbara.lembecke@th-rosenheim.de).

<sup>1</sup> As an additional option, a pre-semester model for acquiring language and study skills could be considered to support international students without sufficient language skills in meeting the admission requirements.

<sup>2</sup> Language of study is English at the beginning, accompanied by 10 ECTS for German per semester from level B1 to B2/C1, then continuation of studies in German.
