

FACT SHEET ACADEMIC YEAR 2023/2024

General Information:

The Escola d'Art i Superior de Disseny de València is the largest public Design school in the country. Its origins date back to the 19th century with the teaching of Applied Arts. Since its beginning, the school has been closely associated with professional environments; its faculty has always included specialists in Design. In the 90s, EASD Valencia strongly embraced Design education and directed its pedagogy towards the project. This marked a shift in the concept and a transformation that many schools followed thereafter. Over the years, EASD Valencia has solidified its project by strengthening connections with professionals who actively participate in the teaching process. "Design is learned by designing" is the philosophy that underpins all the specializations at EASD Valencia: learning through practice, experience, research, and the development of creativity.
