ECTS & grading system

The student workload consists of the time required to complete all planned learning activities (lectures, seminars, etc.) and private study (preparation for exams, writing of papers, reading, etc.):
1 ECTS credit= 25 hours.

The Spanish grading system can be found in the table below:

Marks	Definition
Matrícula de honor (10)	EXCELLENT - outstanding performance with only minor errors: just in very exceptional cases.
Sobresaliente (9.0-9.9)	VERY GOOD - above the average standard but with some errors.
Notable (7.0-8.9)	GOOD - generally sound work with a number of notable errors
Aprobado (5.0-6.9)	SATISFACTORY/SUFFICIENT - performance meets the minimum criteria. Average performance.
Suspense (less than 5)	FAILED

When the student receives their grades they will be given further information with regards to the ECTS system. The ECTS grade is based on the average achieved by students in that module. It could be that a student with a 7 gets a "good" but an "A" according to the ECTS scale if they are in the top 10% of the results.

Further Information

The Universidade de Vigo is organised on a multi-campus structure. Courses are held in three cities: Pontevedra, Ourense and Vigo (the main campus). Students need to take note to the campus they have been nominated for, since campus changes will only be possible in exceptional circumstances.
