

Information about admission to the degree programme with fewer than 210 ECTS

Regular admission requirement for the Master's degree programme "International Management" is a Bachelor's degree in business administration completed with at least the overall grade "Good" and comprising 210 ECTS credit points. However, admission is also possible with fewer than 210 ECTS, but at least 180 ECTS. In this case, the student must make up the missing credit points to reach 210 ECTS.

With regard to the subjects to be made up, the Examination Committee has decided the following in accordance with Section 3 (5) of the study and examination regulations:

The subjects to be made up depend on which Bachelor's degree programme was completed:

- **Case A: applies to Bachelor's degree programmes that include an integrated practical semester**
In this case, the subjects for the missing ECTS are chosen from the modules of the required elective subjects B32 to B48 from the study and examination regulations for the Bachelor's degree programme in Business Administration at the TH RO. Each of these modules is valued at 10 ECTS.
- **Case B: applies to Bachelor's degree programmes without an integrated practical semester**
In this case, the missing ECTS are gained in the modules B27 "Practical activity" and B28 "Corporate Strategic Planning Simulation" from the study and examination regulations for the Bachelor's degree programme.

In both cases, proof of the passed made-up subjects must be provided before the Master's thesis is issued.

The Examination Committee decides on possible other (business administration) subjects that can be taken to make up for missing ECTS according to the individual application.
