

Master civil engineering SPO 2024

CREDIT POINTS (CP)

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30		
0	Timber structural analysis					Timber construction					Material science wood 1					Material science wood 2					FWPM					FWPM					30	
Voraussetzung 210 CP																																
1	Restoration of timber constructions					Timber engineering I					Ecological concepts for building in a regional context					Surface structures and finite element method					Design under fire exposure					FWPM					30	
2	Timber and reinforced concrete composite construction					Timber engineering II					Special topics of sustainable construction					Fire protection concepts and fire protection in special construction					Scientific work					FWPM					30	
3	Project work timber construction										Master thesis																				30	
Gesamt 90 CP																																

Pre-semester

Timber construction

Sustainability

Special topics in structural engineering

Specialized elective modules
