Engineering Master Summer School
Social activities – TH Rosenheim, Germany

Munich Weekend Trip - Saturday, 25 June 2022

Let’s explore the Bavarian state capital Munich on a weekend trip. We start with a guided tour through the halls of the German engineering pioneer BMW Group. We relax with a tasty lunch before a city tour to spot the sights and hidden charms of Munich. After check-in at the hostel, you can go out to enjoy the excellent shopping opportunities and summer nightlife on your own.

On Sunday, you have more time to visit the beauties of Munich and to stop for a coffee at the English Garden. Later we will travel back to Rosenheim together.

Lake Chiemsee Day Trip - Saturday, 02 July 2022

We go to one of the most beautiful places in Bavaria. Lake Chiemsee is the largest lake in Bavaria and its islands are set against the picture perfect landscape of the Alps. Together we visit the world famous royal Herrenchiemsee Castle built on the model of Versailles. After our tour, a hike through the imposing castle park and island is a pleasure.

To reward ourselves, a ferry takes us to a traditional restaurant. After a delicious dinner we head back to Rosenheim together.
